Existing PennyMac Disaster Policy

If the subject property is located in one of the impacted counties and the appraisal was completed prior to the incident period end date, PennyMac will require a post disaster inspection confirming the property was not adversely affected by the disaster. Clients may utilize any of the following re-inspection options to satisfy the post disaster inspection requirement:

- Property Inspection Report (Form 2075), or
- Appraisal Update and/or Completion Report (Form 1004D), or
- Certification from a Licensed Property Inspector, or
- Lender Certification with post-disaster photos that clearly demonstrate the property has not been adversely affected by the disaster. The Certification must not be executed by an employee that receives direct compensation from the subject transaction.
