

**Announcement # 23-60**

**Date:** October 16, 2023

## **P3 Multi-Factor Authentication Set Up**

As part of our commitment to maintain the highest quality and security of our client's data, Pennymac will begin to use Multi-Factor Authentication (MFA) technology to log into the P3 portal. Today, all Non-Delegated P3 users received an email to complete the pre-registration process.

Please look out for the email and take a few moments to complete the setup process to avoid any potential disruption to your experience with the P3 portal.

Please contact your Sales Representative with any questions.
